

## Closing Ceremonies – Babel 2021

Kathryn Burke:

Thank you for being part of the first annual Babel Conference! We created Babel to be something a little different, where it wasn't about where you sim, but about you as a player. It's about sharing what we've learned and helping each other.

The presentations and conversations have been wonderful. We could not have done this without your support and participation. Each of you helped make this day a success! Thank you!

Charles Star:

Thanks to all of you for organizing and putting this on. It was a lot of fun.(edited)

Kathryn Burke:

We want to give a special thanks to all our wonderful presenters. They put time and effort into bringing their ideas and experience to the conference so we could all benefit. They deserve a big round of applause.
